Education Committee Report
Annual General Meeting
April 24, 2012

The Education Committee is committed to improving knowledge on the environment and educating generation on waste management. I have attended meetings with the Fundy Region Solid Waste Commission (FRSWC) Public Education Committee and joined in the Canada Day celebrations at Brundage Point. We made a flyer to pass out, had craft's donated by The Home Depot (recycled) and passed out compost bags donated by Fundy Solid Waste.

The Education grants were awarded to two students from NBCC- Saint John; Natalie Ross (Technology) and Andrew Welton (Mechanical Engineering Technology). There was only one student from UNB: Sean Conley. Because there was only one student that applied, we are now reviewing and changing the application process to encourage more students to apply.

The board has also visited area High Schools, sent letter and are now on a list of grants available. We have compiled list of contacts with the High School to keep in touch.

This committee continues to financially support the bussing of students from our host community schools to the Crane Mountain landfill site and continues to keep in touch and offer our support.

Kathy Lawrence
Education Committee, CMEI
