HISTORY OF CRANE MOUNTAIN ENHANCEMENT INC.

Crane Mountain Enhancement Inc.(CMEI) was formed in 1997, under the leadership of the late Glenn Carpenter, as a condition for the approval of the Provincial Environmental Impact Assessment for the construction of a sanitary landfill at Crane Mountain.

Initially, CMEI was concerned with monitoring the construction site and ensuring that members were fully informed concerning the landfill operation.

CMEI is also the conduit for representation from the Host Community concerning any matter relating to the operation of the facilities. The Host Community is the area including Grand Bay-Westfield and that portion of the City of Saint John extending from the southern boundary of Grand Bay-Westfield to a line drawn of right angle to the end of the sewer line located at the South Bay Bridge in South Bay.

Crane Mountain Enhancement Inc. is also responsible for reporting to residents of the Host Community any pertinent information, and they must also report any problems to the Minister and other authorities having jurisdiction relevant to the views of the Host Community.

For the benefit of the Host Community, Crane Mountain Enhancement Inc. receives applications and makes recommendations to Fundy Region Solid Waste (FRSW) for the appropriate allocation of the Host Community Enhancement Fund. (This fund is made up of a dedicated portion of the tipping fees collected each year – approximately \$75,000 per year.) This fund shall be used to satisfy conditions imposed upon FRSW by the Minister for 'public access, development of amenities and enjoyment thereof, and other community purposes.'
