#### Revenue Recognition

The operating grant, provided by Fundy Regional Service Commission, is recognized as revenue on an accrual basis over the term of the grant.

#### Contributed services

Volunteers contribute a significant amount of their time each year. Because of the difficulty in determining their fair value, contributed services are not recognized in the financial statements.

#### Financial Instruments Policy

Financial instruments are recorded at fair value when acquired or issued. In subsequent periods, financial assets with actively traded markets are reported at fair value, with any unrealized gains and losses reported in income. All other financial instruments are reported at amortized cost, and tested for impairment at each reporting date. #### Measurement Uncertainty

The preparation of financial statements in conformity with Canadian accounting standards for not-for-profit organizations requires management to make estimates and assumptions that affect the reported amount of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Such estimates are periodically reviewed and any adjustments necessary are reported in earnings in the period in which they become known. Actual results could differ from these estimates.
